Lunch and refreshments are provided		
You may also approach our speakers for a one-to-one private discussion.		

Your Metrology Software Solution

PolyWorks® is the first single-vendor solution that supports all 3D measurement processes and tasks performed by industrial manufacturing organizations, from model-based definition for measurement planning in CAD software to dimensional analysis, quality control, and reverse-engineering, up to the enterprise-wide sharing of 3D measurement data and results.

Cairnhill Metrology welcomes you to our exclusive Polyworks Seminar for Toyota Group. Gain practical PolyWorks knowledge for the complete quality control process, from 3D inspection planning, measuring parts and pieces, and reviewing results to managing and sharing inspection data.

We welcome our event speakers:

Mr **Syed Ahmad Nafis**, Application Engineer and PolyWorks Specialist at Cairnhill Metrology will discuss and demonstrate how **InnovMetric PolyWorks software** is an exceptional advantage to increase daily productivity and work quality in your industry.

Mr **Masashi Usui**, Assistant Manager of DX Development Department and been in charge of customizing and developing PolyWorks since 2017 at Toyota Production Engineering Corporation (TPEC Japan). He will discuss PolyWorks with the Hinagata Format and showcase a live demonstration.
